

MANDALI APP - COMPLETE PROJECT DOCUMENTATION

Full Chat History Summary | Version 1.0

SECTION 1: APP CONCEPT & OVERVIEW

What is This App?

text

APP NAME: Digital Mandali App (Name TBD)

TYPE: Web App + Android App + iOS App

PURPOSE: Digital version of traditional Gujarat Mandali/Chit Fund system

TARGET: Community members who run or participate in Mandali savings groups

PHASE 1: WordPress Web App (Trial/MVP)

PHASE 2: Android App

PHASE 3: iOS App

How the System Works (Basic Concept)

text

EXAMPLE:

- Admin Creates Group: "500 Rs Monthly Group"
- Members: 20 People Join
- Monthly Collection: $500 \times 20 = 10,000$ Rs
- Platform Fee: Variable (set by super admin, e.g. 5%)
- GST on Fee: 18% on platform fee amount
- Winner Gets: Pool minus fee minus GST
- Duration: Equal to total members (20 members = 20 months)
- Every Member Wins: Exactly 1 time
- Even After Winning: Member keeps paying every month
- Draw: Every month, system picks 1 winner randomly

EXAMPLE CALCULATION:

- Gross Pool: ₹10,000
- Platform Fee (5%): ₹500
- GST on Fee (18%): ₹90
- Winner Receives: ₹9,410
- Platform Earns: ₹500 (pays ₹90 GST to government)

SECTION 2: USER ROLES

Three Types of Users

text

ROLE 1: SUPER ADMIN (Your Company)

- Manage entire platform
- Approve/reject KYC manually
- Set and change platform fee percentage
- Monitor all groups and payments
- Approve payout requests

- └─ Manually transfer winner amount
- └─ Suspend suspicious users or groups
- └─ View all financial reports
- └─ Full platform control

ROLE 2: GROUP ADMIN (Community Leader / Mandali Organizer)

- └─ Must be verified user first
- └─ Can create private groups (invite only)
- └─ Can invite friends/family/relatives
- └─ View all member profiles in their group
- └─ Send payment links to unpaid members
- └─ View group pool balance (read only)
- └─ Request winner payout after draw
- └─ Can also join other groups as normal member
- └─ New user: Maximum 1 active group
- └─ Limit increases as track record builds

ROLE 3: MEMBER (Regular Community Person)

- └─ Register with KYC
- └─ Join invited groups only (Phase 1)
- └─ Pay monthly via auto-debit or payment link
- └─ View group status and payment history
- └─ Participate in monthly draw
- └─ Receive winning amount in bank account
- └─ Join multiple groups if invited

SECTION 3: COMPLETE REGISTRATION & KYC SYSTEM

Registration Flow

text

STEP 1: Enter Mobile Number → OTP Verification

STEP 2: Basic Details:

- └─ Full Name (as per Aadhar)
- └─ Date of Birth
- └─ Email Address
- └─ City/State
- └─ Gender
- └─ Profile Photo (live selfie in app)

STEP 3: Document Upload (Manual KYC - Phase 1):

- └─ Aadhar Card Front Photo
- └─ Aadhar Card Back Photo
- └─ PAN Card Photo
- └─ Enter Aadhar Number manually
- └─ Enter PAN Number manually

STEP 4: Bank Account Details:

- Account Holder Name
- Account Number
- IFSC Code
- Bank Name
- Bank Passbook/Statement first page photo

STEP 5: Submit → Status "Under Review 24-48 hours"

STEP 6: Platform Team Manual Review:

- Aadhar photo readable?
- Name on Aadhar matches entered name?
- PAN card readable?
- PAN name matches Aadhar name?
- Bank details readable?
- Account name matches KYC name?
- Selfie matches Aadhar photo?

STEP 7: APPROVED or REJECTED with specific reason

PHASE 1 NOTE:

No Aadhar API used

No PAN API used

No CIBIL integration

No Penny Drop bank verification

All manual review by platform team

These APIs added in Phase 2 if app is successful

KYC Challenges & Solutions

text

CHALLENGE V1: Blurry or Wrong Documents Uploaded

SOLUTION:

- In-app camera with frame guidelines
- Auto-detect poor image quality before upload
- Rejection with specific reason
- "Aadhar front photo is blurry, retake in good light"
- User resubmits specific document only
- 3 resubmission attempts allowed

CHALLENGE V2: Fake Documents

SOLUTION (Manual Checklist):

- Aadhar: Check QR, font, logo, photo matches selfie
- PAN: Check format, Income Tax logo, name matches

- Bank: Check IFSC exists, name matches KYC name
- If suspicious: Reject + flag account

CHALLENGE V3: Same Person Multiple Accounts

SOLUTION:

- Aadhar Number = Unique Key (no duplicate allowed)
- PAN Number = Unique Key
- Bank Account Number = Unique Key
- Same device multiple accounts = Flagged
- Similar selfie photos = Manual review alert

CHALLENGE V4: Verification Team Overwhelmed

SOLUTION:

- Admin dashboard shows pending count
- Pre-written rejection templates
- Batch review interface
- 48 hour SLA with escalation alerts
- Priority queue for invited users

SECTION 4: GROUP CREATION & MANAGEMENT

Group Creation Rules

text

WHO CAN CREATE GROUP:

- Must be fully KYC verified
- New user: Maximum 1 active group
- After completing 1 group: 2 groups allowed
- After completing 2 groups: 3 groups allowed
- Super admin can manually increase limit

GROUP DETAILS WHEN CREATING:

- Group Name
- Monthly Contribution Amount
- Total Members Required
- Duration: AUTO CALCULATED (members = months)
- Monthly Draw Date (e.g. 25th of every month)
- Registration Deadline
- Group Start Date
- Group Description/Rules (optional)

GROUP IS ALWAYS PRIVATE:

- No public listing
- Invite only
- Share via unique link or 6-digit group code
- WhatsApp share button available

Group Status Lifecycle

text

FILLING → (members joining)

Admin can request extension if needed (MAX 2 TIMES)

ACTIVE → (all members joined or deadline passed)

RUNNING → (payments and draws happening)

COMPLETED → (all months done, all winners paid)

OR

SUSPENDED → (Platform action)

CANCELLED → (Admin cancels before start)

Extension Request System

text

RULES:

- |— Maximum 2 extension requests per group lifetime
- |— Each extension: Maximum 15 days added
- |— Admin submits reason for extension
- |— Platform admin approves
- |— All members notified of new deadline
- |— After 2nd extension: Button permanently disappears

IF GROUP STILL NOT FULL AFTER 2 EXTENSIONS:

CHOICE A: Start with current members

- |— Numbers recalculate automatically
- |— Example: 15 joined instead of 20
- |— Duration becomes 15 months
- |— Pool becomes smaller
- |— All members notified of change
- |— Members can exit if they disagree (full refund)

CHOICE B: Cancel group

- |— All members who paid get full refund

CHALLENGE: Admin requests more than 2 extensions

SOLUTION: Hard system block, only super admin

can grant special extension with documentation

Group Visibility (All Members Can See)

text

GROUP DASHBOARD VISIBLE TO EVERY MEMBER:

- Group name, amount, member count, duration
- Current month status
- ALL MEMBERS PAYMENT STATUS:
 - ✓ Ramesh Patel - PAID
 - ⌚ Mukesh Joshi - PENDING
 - ✗ Haresh Patel - OVERDUE (3 days)
- Total collected vs total expected
- Next draw date and eligible member count
- Previous winners list with amounts
- Draw history with verification option

SECTION 5: MEMBER JOINING SYSTEM

Joining Flow

text

STEP 1: Receive invite link or group code

STEP 2: Open link, register/login if needed

STEP 3: View complete group details:

- Monthly amount
- Total months
- Draw date
- Fee structure (platform fee % + 18% GST)
- Current members joined
- What happens after winning

STEP 4: Accept Group Agreement (Digital Signature via OTP):

- I will pay every month even after winning
- I accept platform fee + GST deduction
- I agree to auto-debit setup
- I accept all group rules

STEP 5: Pay Joining Amount:

- First Month: e.g. ₹500
- Security Deposit: ₹500 (1 month extra)
- Commitment Bond: ₹1,000 (2 months extra)
- TOTAL AT JOINING: ₹2,000

STEP 6: Setup Auto-Debit NACH Mandate via Razorpay:

- Amount: ₹500 monthly
- Debit date: Set per group schedule
- Duration: Matches group duration

STEP 7: JOINED SUCCESSFULLY

SECTION 6: PAYMENT SYSTEM

Two Layer Payment System

text

LAYER 1: AUTO-DEBIT (Primary Method)

- └─ Razorpay NACH Mandate
- └─ Automatic debit on due date
- └─ Member does nothing manually
- └─ Most members pay this way

LAYER 2: PAYMENT LINK (Secondary - If Auto-Debit Fails)

- └─ Admin sends payment link to specific member
- └─ Member clicks and pays online
- └─ Money goes DIRECTLY to platform bank account
- └─ Admin NEVER handles money
- └─ NO CASH/OFFLINE COLLECTION AT ALL

IMPORTANT RULE:

- └─ Admin role = Relationship coordinator only
- └─ Admin sends payment link via WhatsApp/app/SMS
- └─ Admin uses personal relationship to remind
- └─ Admin never collects or touches money
- └─ Every rupee goes directly to platform account

Auto-Debit Retry System

text

Day 20: Notification "Payment due in 5 days"

Day 22: Notification "Payment due in 3 days"

Day 24: Notification + WhatsApp + SMS "Payment tomorrow"

Day 25 (6:00 AM): AUTO-DEBIT ATTEMPT 1

- └─ SUCCESS → Paid  Notification sent
- └─ FAIL → Wait

Day 25 (2:00 PM): AUTO-DEBIT ATTEMPT 2

- └─ SUCCESS → Paid 
- └─ FAIL → Urgent notification to member + admin

Day 26 (10:00 AM): AUTO-DEBIT ATTEMPT 3

- └─ SUCCESS → Paid with late fee 
- └─ FAIL → Grace period starts

GRACE PERIOD: Day 26-28

- Member pays manually or via admin payment link
- Late fee: 2% of monthly amount per day
- Admin notified, can send payment link

Day 29: FINAL DEADLINE

- Security deposit used for this month
- Member excluded from this month's draw
- Member must replenish security deposit before next draw
- Admin notified immediately

Payment Link System (Replacing Manual Collection)

text

HOW ADMIN SENDS PAYMENT LINK:

ADMIN DASHBOARD SHOWS UNPAID MEMBERS:

- [VIEW PROFILE] [SEND PAYMENT LINK] buttons per member

ADMIN CLICKS SEND PAYMENT LINK:

- System generates unique link for:
 - This specific member
 - This specific group
 - This specific month
 - Exact amount due including late fee
- Link expires in 48 hours
- One-time use only (prevents double payment)

ADMIN SENDS VIA:

- App notification (system sends)
- Copy link (admin pastes in WhatsApp)
- SMS (system sends)
- Email (system sends)

MEMBER PAYS:

- Clicks link
- Sees: Group name, month, amount, late fee, total
- Pays via UPI/Card/Net Banking
- Money goes DIRECTLY to platform bank account

RESULT:

- Member marked PAID automatically
- Group pool updated
- Admin notified
- Member gets confirmation
- Admin had zero contact with money

PAYMENT LINK CHALLENGES:

- PL1: Link shared wrong person → Link tied to member ID only
- PL2: Link expired → Admin generates new link
- PL3: Member pays twice → One-time use, second attempt blocked
- PL4: Member ignores link → Admin calls directly using profile

SECTION 7: SECURITY DEPOSIT & COMMITMENT BOND SYSTEM

Three-Layer Financial Protection

text

LAYER 1: FIRST MONTH PAYMENT (₹500)

- Goes into Month 1 draw pool (non-refundable)

LAYER 2: SECURITY DEPOSIT (₹500 = 1 month amount)

- Purpose: Covers any single monthly payment failure
- Used when: Auto-debit fails + grace period ends
- Not used: Before winning, not used for draw pool
- Return: At group completion if never used
- If used: Member must replenish within 7 days

LAYER 3: COMMITMENT BOND (₹1,000 = 2 months amount)

- Purpose: SPECIFICALLY protects against post-win default
- Used when: Member wins AND then defaults payments
- NOT used: Before winning, not used for regular failures
- Return: At group completion if member completes all payments
- If used: No return (compensation to group pool)

TOTAL AT JOINING: ₹2,000 (for ₹500 monthly group)

TOTAL PROTECTION: 3 months coverage after any default

Why Commitment Bond (Not Security Deposit Increase)

text

OLD WAY (REJECTED):

- Deduct extra from winning amount
- Member wins ₹9,410
- Platform deducts ₹500 surprise
- Member receives ₹8,910
- Member feels cheated ✖
- Trust problem ✖

NEW WAY (CONFIRMED):

- Collect Commitment Bond upfront at joining
- Member knows exactly what they are committing
- Member wins ₹9,410

- Member receives FULL ₹9,410 (no surprise deduction)
- Bond already collected = no surprise ✓
- Trust maintained ✓

PSYCHOLOGY PRINCIPLE:

People accept rules at beginning

People hate surprises at the end

Collect commitment bond upfront = smarter design

Post-Win Default Coverage

text

SCENARIO: Member wins Month 4, stops paying Month 5

MONTH 5: Auto-debit fails all 3 attempts

- Security Deposit (₹500) used → Month 5 covered
- Member urgently notified
- Group admin contacts member directly (has phone number)

MONTH 6: Member still missing

- Commitment Bond activated
- ₹500 from bond → Month 6 covered
- Legal notice sent

MONTH 7: Member still missing

- Remaining ₹500 from bond → Month 7 covered
- Bond fully exhausted
- Graduated legal process begins

TOTAL BUFFER: 3 months

This gives maximum time for recovery

Other group members not affected

SECTION 8: DRAW SYSTEM

Draw Rules

text

ELIGIBILITY FOR DRAW:

- Must have paid current month ✓
- Must NOT have won before ✓
- Must be ACTIVE member ✓
- Security deposit must be intact ✓
- No active payment dispute ✓

IF ALL MEMBERS NOT PAID ON DRAW DATE:

- Security deposit covers unpaid members

- |— Draw still happens ON TIME
- |— Unpaid members: Eligible if security covers
- |— BUT get late payment mark on profile
- |— No delay to draw for individual defaults

Draw Timeline

text

Day 20: System prepares eligible member list

Day 23: Eligible list LOCKED (48 hours before draw)

- |— No changes after this point
- |— Not by admin, not by super admin
- |— All members can see their eligibility status
- |— Admin cannot edit list after lock

Day 24 (7PM): Notification "Draw tomorrow at 7PM"

Day 25 (6:50PM): "Draw in 10 minutes! Open app"

Day 25 (7:00PM): LIVE DRAW BEGINS

DURING LIVE DRAW:

- |— Animated spinning wheel with member names
- |— Draw Seed Number shown live (tamper proof)
- |— All watching members count shown
- |— Winner announced with celebration animation
- |— Prize amount shown with fee breakdown
- |— Share and Verify buttons available

AFTER DRAW:

- |— Winner gets downloadable certificate with QR code
- |— Draw proof page created (seed + list + result)
- |— Any member can verify result independently
- |— Winner auto-removed from next month's eligible list
- |— Admin receives "Request Payout" button
- |— All members notified of result

Draw Tamper-Proof System

text

SEED GENERATION (Unpredictable inputs):

- |— Exact timestamp at draw moment (milliseconds)
- |— Total payment transaction IDs (last 30 days)
- |— Current stock market index value (public)
- |— Weather temperature data (public API)
- |— Combined = SEED (published before draw)

ALGORITHM:

- |— Open source (published on website)
- |— Input: Seed + Member List = Only one possible winner
- |— Anyone can verify independently
- |— Admin cannot predict or influence

IMMUTABLE RECORD:

- |— Winner stored in database immediately
- |— Stored in separate backup database
- |— Timestamp to millisecond accuracy
- |— Hash created (any tampering detected)
- |— Record is permanently READ-ONLY

QR CERTIFICATE:

- |— Winner gets certificate with QR code
- |— Anyone scans QR = sees draw details on website
- |— Cannot be created manually by admin
- |— Absolute proof of legitimate win

Draw Fairness Challenges & Solutions
text

CHALLENGE F1: Members don't trust draw is random

SOLUTION: Verifiable seed + open source algorithm
Anyone can verify independently

CHALLENGE F2: Live experience not exciting

SOLUTION: Animated live draw, countdown timer,
live viewer count, celebration animation

CHALLENGE F3: Admin manipulates member list

SOLUTION: 48-hour automatic lock before draw
Admin cannot edit after lock
All changes logged in audit trail

CHALLENGE F4: Winner disputes result

SOLUTION: Immutable database record + QR certificate
Seed + algorithm + list = only one possible result

CHALLENGE F5: Admin delays or skips draw

SOLUTION: Time-locked automatic scheduling
Admin cannot start early or late
System auto-confirms if admin delays 30 min

CHALLENGE F6: Last remaining member

SOLUTION: System auto-detects final eligible member

Draw still happens normally

Group marked COMPLETED after payout

SECTION 9: GROUP ADMIN WALLET / POOL BALANCE SYSTEM

Money Flow (Critical Design Decision)

text

ALL MONEY FLOW:

Member Bank Account

Razorpay Payment Gateway
(Auto-debit or Payment Link)

YOUR PLATFORM BANK ACCOUNT
(All money ALWAYS here, never anywhere else)

Group Pool Balance (Display Only in Admin Dashboard)
Admin CANNOT withdraw
Admin CANNOT transfer
Admin can only VIEW balance

Admin Requests Winner Payout (After Draw)

Platform Admin Reviews and Approves

Platform Admin Manually Transfers to Winner Bank

Winner Bank Account
(Receives: Pool minus platform fee minus GST)
What Group Admin Can and Cannot Do
text

GROUP ADMIN CAN:

- View group pool balance (read only) ✓
- See who paid and who didn't ✓
- View complete member profiles ✓
- Send payment links to unpaid members ✓
- Send payment reminders ✓
- Request winner payout (after draw) ✓
- View all past group history ✓
- Join other groups as normal member ✓

GROUP ADMIN CANNOT:

- Withdraw any money ✗

- Transfer to own account ❌
- Collect cash from members ❌
- Change winner ❌
- Edit eligible member list after 48hr lock ❌
- Use pool for anything else ❌
- Edit winner amount in payout request ❌

Payout Request Flow

text

STEP 1: Draw completed, winner announced

STEP 2: Admin Dashboard shows [REQUEST WINNER PAYOUT] button
Button only activates after draw is complete

STEP 3: Admin clicks button

System AUTO-FILLS (admin cannot edit):

- Winner Name
- Winner Member ID
- Winner Bank Account (from winner's profile)
- Bank Name and IFSC
- Gross Pool Amount
- Platform Fee deducted
- GST deducted
- Net Transfer Amount
- Month number

STEP 4: Admin confirms request (cannot change any field)

STEP 5: Platform Admin receives notification

"Payout Request - [Group] - Month [X] - ₹[Amount]"

STEP 6: Platform Admin reviews:

- Draw completed properly? ✓
- Winner details correct? ✓
- Bank account verified? ✓
- No active disputes? ✓
- Fee calculation correct? ✓

STEP 7: Platform Admin approves

STEP 8: Platform Admin manually transfers from platform bank

Reference: MANDALI-GRP-001-MONTH-3-WINNER

Uploads UTR number and transfer proof

STEP 9: System sends notifications:

- |— Winner: "₹9,410 transferred to your account!"
- |— Group Admin: "Winner payout completed Month 3"
- |— All Members: "Month 3 winner payout completed"

STEP 10: Next month cycle begins

Payout Challenges & Solutions

text

CHALLENGE W1: Admin runs away with money

SOLUTION: No wallet at all. Platform holds all money.

Admin has ZERO access to funds.

CHALLENGE W2: Fee/GST accounting confusion

SOLUTION: Auto-generated monthly settlement statement

Every group every month gets breakdown report

CHALLENGE W3: Admin requests wrong winner payout

SOLUTION: System auto-fills winner details

Admin cannot edit any field

Winner only comes from system draw result

CHALLENGE W4: Admin delays payout request

SOLUTION: After draw, 24-hour reminder to admin

After 24 hours: System auto-creates request

Admin gets warning mark on profile

3 warnings = cannot create new groups

CHALLENGE W5: Platform admin delays approval

SOLUTION: 24-hour internal SLA

After 24 hours: Super admin alert

All members can see payout status in real time

Full transparency reduces frustration

SECTION 10: PLATFORM FEE MANAGEMENT

Fee Rules

text

SUPER ADMIN CONTROLS:

- |— Can change fee percentage anytime from dashboard
- |— Minimum allowed: 1%
- |— Maximum allowed: 10%
- |— GST: Always 18% on platform fee (fixed by government)
- |— Fee change logged with timestamp

FEE LOCK PER GROUP:

- When group is CREATED: Fee at that moment locked permanently
- Even if super admin changes fee later:
 - Existing running groups keep original fee
- New groups use new fee
- Each group shows its own specific fee rate

EXAMPLE:

- January: Fee = 5% → Group A and B created → Both keep 5% forever
- March: Super admin changes to 7%
- Group A and B: STILL 5% (locked at creation)
- Group C created in March: 7% applies

FEE DISPLAY (Always shown to members):

Total Collected:	₹10,000	
Platform Fee (5%):	- ₹500	
GST on Fee (18%):	- ₹90	
YOU RECEIVE:	₹9,410	

No hidden charges ever

SECTION 11: MEMBER PROFILE VISIBILITY FOR ADMIN

What Admin Can See

text

MEMBER PROFILE (Visible to Group Admin):

- Full Name
- Mobile Number (can call directly)
- Email Address
- City/State
- Profile Photo
- KYC Verification Status
- Platform Behavior Score (star rating)
- Total groups joined on platform
- Late payment count (platform wide)
- Default history count
- Commitment bond used (yes/no)
- Payment history in THIS group only

HIDDEN FROM ADMIN (Privacy):

- Bank account number ✗
- Full Aadhar number ✗
- PAN card number ✗
- Payment details in OTHER groups ✗

ADMIN ACTIONS FROM PROFILE:

- └— [SEND PAYMENT LINK] - Generates and sends link
 - └— [SEND REMINDER] - System notification
 - └— [CALL NOW] - Opens phone dialer
 - └— [WHATSAPP] - Opens WhatsApp with pre-filled template
- Template: "Hi, your payment for [Group] Month [X]
is pending. Pay here: [link]"
- Admin cannot edit template (keeps professional)

Privacy Protection Challenges

text

CHALLENGE PR1: Admin misuses contact details

SOLUTION:

- └— Every profile view logged in audit
- └— Every payment link sent logged
- └— Member can report harassment
- └— Platform reviews audit logs as evidence
- └— Admin suspended if misuse proven

CHALLENGE PR2: Bank details exposed

SOLUTION: Bank account numbers always hidden from admin

CHALLENGE PR3: Cross-group data visible

SOLUTION: Only THIS group's payment history visible

Only late count shown for other groups (not details)

SECTION 12: MEMBER DEFAULT HANDLING

Complete Default Process (5 Stages)

text

STAGE 1: AUTOMATED (Day 1-7 of default)

- └— Daily app notifications
- └— Daily SMS
- └— WhatsApp messages
- └— Email reminders

STAGE 2: PERSONAL CONTACT (Day 7-14)

- └— Platform support team calls member
- └— Admin contacts using profile phone number
- └— Payment plan offered if genuinely struggling
- └— Admin contacts guarantor if provided

STAGE 3: COMMUNITY NOTICE (Day 14-21)

- └— Member marked "Payment Overdue" in group

- All group members can see status
- Community accountability (powerful in Gujarat)
- Late payment mark visible on profile to all admins

STAGE 4: LEGAL NOTICE (Day 21-30)

- System generates legal notice
- Sent via email + registered post
- References signed digital agreement
- Account marked RESTRICTED
- Cannot join any new groups

STAGE 5: ESCALATION (Day 30+)

- Account marked DEFAULTER
- Cannot use platform for any activity
- Blacklisted (cannot re-register with same Aadhar/PAN)
- Manual recovery by platform legal team

FINANCIAL COVERAGE DURING DEFAULT:

- Month 1 of default: Security Deposit covers (₹500)
- Month 2 of default: Commitment Bond covers (₹500)
- Month 3 of default: Remaining Bond covers (₹500)
- Total: 3 months buffer while recovery happens
- Other group members not affected during this time

Special Default Scenarios

text

SCENARIO: DEATH OR MEDICAL EMERGENCY

- Family contacts platform support
- Death certificate or hospital bills submitted
- Nominee (collected at registration) takes over
- Options given to nominee:
 - A: Continue paying and complete group
 - B: Exit group (security deposit returned)
 - C: Transfer membership to another person
- Compassionate exit considered case by case

SCENARIO: JOB LOSS/FINANCIAL CRISIS

- Member informs admin BEFORE missing payment
- Proactive communication = more sympathy
- Payment holiday: Up to 2 months pause
- After holiday: Resume normal payments
- Commitment Bond not used if genuinely reported early

NOMINEE COLLECTION AT REGISTRATION:

- |— Nominee Name
- |— Nominee Mobile
- |— Nominee Relationship
- |— Used only in genuine emergency

SECTION 13: LATE PAYMENT MARKING SYSTEM

Marking Rules

text

WHEN MARK IS APPLIED:

- |— ONLY after grace period ends (not immediately)
- |— Grace period: 3 days after due date
- |— Mark applied on Day 4 if still unpaid

WHAT THE MARK SHOWS:

ON MEMBER PROFILE:

- |— Payment Discipline Score: ★★☆☆☆
- |— Late Payment Count: 1 time
- |— Security Used Count: 0 times
- |— Default Count: 0
- |— Complete month-by-month payment history

ON GROUP MEMBER LIST:

- |—  Ramesh Patel - PAID
- |—  Haresh Patel - 2 days late [LATE PAYER]
- |—  Mukesh Joshi - Overdue [SECURITY USED]

VISIBLE TO:

- |— Platform admin  (full details)
- |— Group admin of that member's groups 
- |— Other group members  (status only)
- |— Other admins when inviting member:
 "This member has 1 late payment history"
 Admin can still invite but is informed

LATE PAYMENT CHALLENGES:

- |— LP1: Unfair marking → Only after grace period ends
- |— LP2: Member disputes mark → Support ticket + payment logs review
- |— LP3: After payment, mark stays as history record
 "Resolved" label added but history preserved
- |— LP4: Multiple groups → Only count shown not other group details

SECTION 14: NOTIFICATIONS SYSTEM

Complete Notification List

text

REGISTRATION:

- "Welcome! KYC under review (24-48 hours)"
- "KYC Approved! You can now join/create groups"
- "KYC Rejected: [specific reason]. Please resubmit"

GROUP ACTIVITY:

- "You have been invited to join [Group Name]"
- "You successfully joined [Group Name]"
- "Registration extended to [new date]"
- "Group is now ACTIVE - First draw on [date]"
- "Group COMPLETED! Security deposit being returned"

PAYMENT REMINDERS:

- "Payment due in 5 days: ₹500 for [Group]"
- "Payment due tomorrow! Ensure balance available"
- "Auto-debit processing today..."
- "Payment successful 
- "Payment failed  - Admin will send payment link"
- "URGENT: Security deposit used. Pay ₹X within 7 days"
- "Late fee applied: ₹10/day from today"

DRAW NOTIFICATIONS:

- "Draw tomorrow at 7 PM! Watch live in app"
- "Draw in 10 minutes! Open app now"
- "[Name] won this month's draw!"
- " YOU WON ₹9,410! Payout has been requested"
- "Your winning ₹9,410 has been transferred!"

DEFAULT WARNINGS:

- "Payment overdue. Admin has been notified"
- "Your account is restricted - payment default"
- "Legal notice sent for payment default"

SECURITY/BOND:

- "Security deposit used for [month]"
- "Please replenish security deposit ₹500"
- "Security deposit ₹500 returned - Group completed"

SECTION 15: PLATFORM ADMIN DASHBOARD

What Platform Admin Manages

text

OVERVIEW DASHBOARD:

- Total registered users

- └─ Pending KYC verifications (priority queue)
- └─ Total active groups
- └─ Total money in platform account
- └─ Pending payout requests
- └─ Overdue payout requests (24+ hours old)
- └─ Active disputes
- └─ Today's scheduled draws

KYC MANAGEMENT:

- └─ Pending verification queue
- └─ Document viewer side by side
- └─ One-click approve or reject with template reason
- └─ Resubmission tracking
- └─ Suspicious account flags
- └─ Verification team workload tracker

GROUP MANAGEMENT:

- └─ All groups filtered by status
- └─ Extension requests queue
- └─ Suspended groups
- └─ High-default groups flagged
- └─ Group completion tracking

PAYMENT MONITORING:

- └─ Today's auto-debit success/failure results
- └─ Failed payment list
- └─ Security deposits used today
- └─ Pending payout requests
- └─ Completed payouts this month

PAYOUT MANAGEMENT:

- └─ New payout requests (priority!)
- └─ Review winner and amount details
- └─ Approve payout
- └─ Mark as transferred (enter UTR number)
- └─ Upload transfer proof
- └─ Send confirmation to winner

PLATFORM FEE SETTINGS:

- └─ Current fee percentage
- └─ Change fee (min 1%, max 10%)
- └─ Preview calculation at new fee
- └─ Fee change history log
- └─ GST rate (18%, fixed, display only)

FINANCIAL REPORTS:

- Monthly platform revenue
- GST collected (file with CA)
- Total money held across all groups
- Payout history
- Security deposit and bond tracking

SECTION 16: COMPLETE CHALLENGES MASTER LIST

All Challenges and Solutions (Every Category)

text

VERIFICATION CHALLENGES:

- V1: Blurry documents → Camera guide + specific rejection reason
- V2: Fake documents → Manual checklist (No API Phase 1)
- V3: Multiple accounts → Aadhar/PAN/Bank as unique database key
- V4: Team overwhelmed → Batch review + templates + SLA alerts

GROUP CREATION CHALLENGES:

- GC1: Group not filling → Max 2 extensions, 15 days each
- GC2: More than 2 extensions requested → Hard system block
- GC3: Forced joining → Invite only, member must actively accept
- GC4: Group limit abuse → 1 group new user, grows with history

PAYMENT CHALLENGES:

- P1: Auto-debit fails → 3 retry attempts then payment link
- P2: All not paid on draw day → Security deposit covers gap
- P3: Gateway technical failure → Backup gateway + reconciliation
- P4: Winner transfer fails → Manual bank verify Phase 1
- P5: Refund management → Clear policy per scenario type
- P6: No manual cash → Payment link only, direct to platform
- P7: Accounting mismatch → Monthly auto settlement statement

PAYMENT LINK CHALLENGES:

- PL1: Link sent to wrong person → Link tied to specific member ID
- PL2: Link expired → Admin generates fresh link
- PL3: Member pays twice → One-time use link, second blocked
- PL4: Member ignores link → Admin calls using profile number

MEMBER DEFAULT CHALLENGES:

- D1: Stops paying after winning → 3 months buffer (deposit+bond)
 - + 5-stage legal process
 - + Admin contacts using profile
- D2: Death/medical emergency → Nominee system + hardship policy
- D3: Fake identity → Manual KYC review Phase 1

D4: Multiple group fraud → 1 group limit + risk score system
D5: Legal recovery → 5-stage graduated process + blacklist

DRAW FAIRNESS CHALLENGES:

F1: Draw trust → Verifiable seed + open source algorithm
F2: Live experience → Animated live draw event
F3: Admin manipulates list → 48-hour automatic lock
F4: Winner disputes → Immutable records + QR certificate
F5: Draw timing manipulation → Time-locked auto scheduling
F6: Last member → Auto-detection + automatic winner

WALLET AND PAYOUT CHALLENGES:

W1: Admin misuses money → No wallet, platform holds everything
W2: Fee/GST confusion → Auto settlement statement monthly
W3: Wrong payout request → System auto-fills, no editing
W4: Admin delays payout → Auto-request after 24 hours
W5: Platform delays → 24-hour SLA with escalation

PLATFORM FEE CHALLENGES:

FC1: Fee change confusion → Fee locked at group creation time
FC2: Extreme fee values → System enforces 1%-10% range
FC3: GST confusion → Always shown separately and clearly

PRIVACY CHALLENGES:

PR1: Admin misuses contacts → Audit log + harassment report
PR2: Bank details exposed → Always hidden from admin
PR3: Cross-group data leak → Only this group history visible

SECURITY DEPOSIT AND BOND CHALLENGES:

SD1: Member doesn't understand bond → Clear explanation at joining
SD2: Member wants bond back mid-group → Only at group completion
SD3: Bond not enough → 3 months total buffer + legal process
SD4: Bond return confusion → Auto-return within 7 days of completion

LATE PAYMENT MARKING CHALLENGES:

LP1: Unfair marking → Only after grace period ends
LP2: Member disputes mark → Support ticket + payment log review
LP3: Mark after payment resolved → Mark stays with Resolved label
LP4: Multiple group visibility → Only count shown not other details

SECTION 17: TECHNOLOGY PLAN

Phase 1: WordPress (Trial/MVP)
text

HOSTING:

- Hostinger Business or Cloud Plan
- Cost: ₹12,000-20,000 per year
- Must support PHP 8.0+, MySQL, SSL

CORE PLUGINS:

- Ultimate Member Pro (user management)
- Razorpay for WordPress (payments + NACH)
- WooCommerce (payment backbone)
- WPForms Pro (forms)
- Elementor Pro (page design)
- Wordfence (security)

CUSTOM PLUGIN (Must be built by developer):

- Group creation and management logic
- Member joining flow
- Auto-debit NACH mandate setup
- Payment link generation system
- Draw algorithm and live draw animation
- Pool balance calculation and display
- Payout request workflow
- Late payment marking system
- Security deposit and bond tracking
- KYC document upload and admin review
- Audit log system
- Notification engine

CUSTOM DATABASE TABLES:

- mandali_groups
- mandali_members
- mandali_payments
- mandali_draws
- mandali_payout_requests
- mandali_security_deposits
- mandali_commitment_bonds
- mandali_kyc_documents
- mandali_payment_links
- mandali_audit_logs
- mandali_notifications

DEVELOPMENT ESTIMATE:

- Custom plugin: 60-90 days
- Developer cost: ₹80,000-1,50,000
- Total WordPress phase: ₹2,00,000-3,50,000

Phase 2: Android App

text

TECH STACK:

- Language: Kotlin (recommended) or Java
- Payment: Razorpay Android SDK
- Notifications: Firebase Push Notifications
- OTP: Firebase Auth or MSG91
- Backend: Connect to WordPress API

DEVELOPMENT ESTIMATE:

- Timeline: 3-4 months
- Cost: ₹1,50,000-3,00,000
- Google Play Store: ₹1,750 one-time

WHAT TO ADD IN PHASE 2:

- Aadhar API (automated verification)
- PAN API (automated verification)
- Penny drop bank verification
- CIBIL/credit bureau integration
- Video KYC (VKYC)

Phase 3: iOS App

text

DEVELOPMENT ESTIMATE:

- Timeline: 3-4 months after Android
- Cost: ₹2,00,000-4,00,000
- Apple Developer Account: ₹8,300 per year

SECTION 18: BUSINESS MODEL

Revenue

text

HOW YOU EARN MONEY:

- Platform fee on every monthly draw (e.g. 5%)
- Fee set by super admin (1%-10% range)
- Applied to every group every month
- GST collected on fee and filed to government

REVENUE EXAMPLE:

- 50 active groups
- Average pool: ₹10,000 per month per group
- Platform fee 5%: ₹500 per group per month
- 50 groups × ₹500 = ₹25,000 per month
- Annual: ₹3,00,000 per year
- Scale to 500 groups = ₹30,00,000 per year

FUTURE REVENUE (Phase 2+):

- Group admin subscription plans
- Premium member features
- Enterprise community plans

SECTION 19: LEGAL & COMPLIANCE

Critical Legal Points

text

MUST DO BEFORE LAUNCH:

- Consult lawyer about Chit Fund Act 1982
- Register company (Private Limited recommended)
- Open business bank account
- Apply for Razorpay/Cashfree business account
- Register for GST (mandatory for fee collection)
- Prepare Terms and Conditions
- Prepare Privacy Policy
- Prepare User Agreement (legally valid with OTP signing)
- Hire CA for GST filing from day 1
- Check state-specific regulations in Gujarat

POSITIONING FOR PHASE 1 (Safer):

- "Community Group Savings Management Platform"
 - "Digital Mandali Management Tool"
 - NOT: "Financial Institution" ❌
 - NOT: "We guarantee loans" ❌
 - NOT: "We are Chit Fund company" ❌
- (Chit Fund companies need special registration)

DIGITAL AGREEMENT IS LEGALLY VALID:

- OTP-signed agreement = valid in India
- Timestamp stored
- Downloadable by member
- Evidence in any dispute

SECTION 20: PHASE 1 MVP - BUILD vs SKIP

Build in Phase 1

text

USER FEATURES (BUILD):

- Mobile OTP registration ✓
- Manual KYC upload and admin review ✓
- Group creation (1 per new user) ✓
- Invite by link and 6-digit code ✓
- Member acceptance and digital agreement ✓

- First month + security deposit + commitment bond payment ✓
- Auto-debit NACH mandate setup ✓
- 3-attempt payment retry system ✓
- Admin payment link generation ✓
- Late payment marking system ✓
- Group pool balance view (read only) ✓
- Live animated draw (system generated) ✓
- 48-hour eligible list lock ✓
- Payout request by admin ✓
- Platform admin manual transfer ✓
- Notification system ✓
- Group status tracking ✓
- Payment history ✓
- Winner certificate with QR ✓
- Draw verification page ✓
- Member profile view for admin ✓

ADMIN FEATURES (BUILD):

- KYC verification dashboard ✓
- Batch review interface ✓
- Group approval and extension management ✓
- Payment monitoring dashboard ✓
- Payout request review and approval ✓
- Manual transfer recording with UTR ✓
- Dispute management ✓
- Platform fee settings ✓
- Basic financial reports ✓

Skip for Phase 1

text

SKIP NOW (Add in Phase 2):

- Aadhar API automated verification ✗
- PAN API automated verification ✗
- CIBIL credit bureau integration ✗
- Penny drop bank verification ✗
- Video KYC (VKYC) ✗
- Blockchain draw recording ✗
- Second payment gateway backup ✗
- Advanced analytics ✗
- Referral system ✗
- iOS app ✗
- Public groups (strangers joining) ✗

SECTION 21: BUDGET ESTIMATE

Total Investment Estimate

text

PHASE 1 - WORDPRESS WEB APP:

- |— Legal and company setup: ₹20,000-50,000
- |— WordPress hosting (1 year): ₹15,000-20,000
- |— Domain: ₹1,000
- |— Premium plugins: ₹10,000-20,000
- |— Custom plugin development: ₹80,000-1,50,000
- |— UI/UX design: ₹30,000-80,000
- |— Testing: ₹20,000-50,000
- |— PHASE 1 TOTAL: ₹1,76,000-3,71,000

PHASE 2 - ANDROID APP:

- |— Development: ₹1,50,000-3,00,000
- |— Play Store: ₹1,750
- |— PHASE 2 TOTAL: ₹1,51,750-3,01,750

PHASE 3 - iOS APP:

- |— Development: ₹2,00,000-4,00,000
- |— Apple account: ₹8,300/year
- |— PHASE 3 TOTAL: ₹2,08,300-4,08,300

GRAND TOTAL ALL PHASES: ₹5,36,050-10,81,050

INITIAL TRIAL MINIMUM:

Phase 1 only: ₹1,76,000-3,71,000

(Test concept before bigger investment)

SECTION 22: IMMEDIATE ACTION STEPS

What to Do Now

text

THIS WEEK:

Day 1-2:

- |— Finalize app name
- |— Write all features you must have
- |— Decide starting platform fee percentage

Day 3-4:

- |— Consult CA about GST registration
- |— Consult lawyer about Chit Fund Act 1982
- |— Research: "Digital Mandali" competition

Day 5-7:

- |— Register company (start process)

- |— Open business bank account
- |— Post on Freelancer.in / Upwork for WordPress developer
- |— Get 3-5 developer quotes
- |— Specify: "Fintech experience required"

NEXT MONTH:

- |— Finalize development team
- |— Apply for Razorpay business account
- |— Start WordPress development
- |— Identify first 20-30 test users from own community

WHERE TO FIND DEVELOPERS:

- |— Freelancer.in
- |— Upwork.com
- |— LinkedIn (WordPress developer + Ahmedabad/Surat)
- |— Local IT companies in Gujarat

SECTION 23: KEY DESIGN PRINCIPLES

Non-Negotiable Rules for This App

text

MONEY RULES:

- |— All money ALWAYS in platform bank account
- |— Admin has ZERO access to actual funds
- |— Group balance = display only, not real wallet
- |— Winner payout only through platform admin approval
- |— No cash or offline collection ever

DRAW RULES:

- |— Draw is 100% system controlled
- |— No human can influence winner selection
- |— Eligible list locked 48 hours before draw
- |— All results publicly verifiable
- |— Admin can only press start, cannot choose winner

TRUST RULES:

- |— Every action logged in audit trail
- |— All transactions permanently recorded
- |— Fee always shown transparently before joining
- |— Members see all payment statuses in group
- |— No hidden charges ever

PROTECTION RULES:

- |— Security deposit covers any monthly payment failure
- |— Commitment bond covers post-win default (2 months)

- Combined 3 months protection buffer
- 5-stage graduated default process
- Digital agreement legally binds every member

GROWTH RULES:

- New user: 1 active group only
- Group limit increases with successful track record
- Trial without expensive APIs first
- Scale only what works
- Trust before technology

DOCUMENT END

text

VERSION: 1.0

DATE: 2025

STATUS: Phase 1 Planning Complete

NEXT STEP: Developer briefing and WordPress development start

THIS DOCUMENT COVERS:

- Complete app concept and model
- All three user roles
- Complete registration and KYC system
- Group creation and management
- Payment system (auto-debit + payment link)
- Security deposit and commitment bond system
- Draw system (fully automated and tamper-proof)
- Group admin pool balance (not real wallet)
- Winner payout request flow
- Platform fee management
- Member default handling
- Late payment marking system
- All challenges with practical solutions
- Technology stack and phases
- Budget estimates
- Legal requirements
- Immediate action steps

TOTAL CHALLENGES DOCUMENTED: 40+

TOTAL SOLUTIONS PROVIDED: 40+

READY TO SHARE WITH: Developer, Legal Team, CA, Investors

MOBILE RESPONSIVE PLAN

text

BREAKPOINTS:

- Desktop: 1200px and above
- Tablet: 768px - 1199px
- Mobile Large: 480px - 767px
- Mobile Small: Below 480px

MOBILE SPECIFIC:

- Hamburger menu on mobile
- Full width cards
- Touch-friendly buttons (min 44px height)
- Swipeable elements
- Bottom navigation bar on mobile
- Fast loading (optimized images)

💡 HOW PLUGIN PROMPTS WILL WORK
text

EVERY STEP I WILL GIVE YOU:

1. WHAT THIS STEP DOES
(Plain English explanation)
2. CLAUDE PROMPT TO USE
(Copy and paste in new Claude chat)
3. WHERE TO PUT THE CODE
(Exact file path and location)
4. HOW TO TEST
(What to check after pasting code)
5. CONFIRM BEFORE NEXT STEP
(You tell me it worked)

EXAMPLE FORMAT I WILL USE:

STEP X: [Step Name]

WHAT THIS DOES:

[Explanation in simple words]

CLAUDE PROMPT:

[Copy this entire prompt and paste
in a new Claude.ai chat tab]

FILE LOCATION:

[Exact path where to paste code]

HOW TO TEST:

[What you should see if working]

CONFIRM WITH:

"Step X Done" or describe any error
